## Education

### Central Michigan University

*Bachelor of Science in Computer Science; Minor: Game Design Thinking*  
– International President's Award Recipient

Mount Pleasant, MI

Jan. 2023 – May 2026

## Experience

### Central Michigan University

*Grader - Computer Science Department*

- Maintained 98% grading accuracy for 50+ students using rigorous standardized rubrics.
- Performed 100+ logic reviews on Java/C code, identifying critical errors in 15% of projects.
- Delivered targeted feedback resulting in measurable improvements in class average scores.

Aug. 2025 – Dec. 2025

Mount Pleasant, MI

### Delta Dental of Michigan

*AppDev Intern*

- Implemented full-stack solutions using HTML, CSS, and SQL for internal application workflows.
- Modernized UI/UX design of legacy pages to improve navigation efficiency for end-users.
- Executed complex SQL queries to manage backend data and support critical internal reporting.

July 2024 – Aug. 2024

Lansing, MI

### Dewpoint

*Intern*

- Developed Power BI visualizations to transform complex datasets into actionable utilization insights.
- Created interactive heatmaps allowing leadership to visualize key performance areas and shift resources.
- Analyzed time-tracking data for 40+ employees to provide visibility into resource management.

May 2024 – June 2024

Lansing, MI

## Projects

**XSKILL** | *Next.js 14, Tailwind CSS, FastAPI, Python, Supabase*

- Built a full-stack platform for skill exchange featuring a credit-based learning system.
- Led design of matchmaking features and the X-Score reputation system.

Nov. 2025 - Present

**Rise of India** | *Unity, C#*

- Implemented complex gameplay mechanics including turn structures and hero card strategies.
- Developed challenge-based decision systems for an engaging educational experience.

Nov. 2025 - Present

**Shellbound (Crossplay Game Jam 2026)** | *Unity, C#*

- Developed a theme-based game prototype centered on destructive progression mechanics.
- Optimized resource management within a competitive, time-constrained environment.

Feb. 2026

**Phantom Escape: Enchanted Maze** | *Unity, C#, HDRP*

- Implemented a 3D puzzle-maze game in Unity, integrating third-person controllers and combat systems.
- Applied state machine logic for AI patrolling, utilizing occlusion culling to maintain performance.

Aug. 2025

## Technical Skills

**Languages:** Python, Java, C#, HTML/CSS

**Tools & AI:** Next.js, FastAPI, VS Code, GitHub, Supabase, Power BI, GenAI, Unity, Unreal Engine

## Leadership & Campus Involvement

### Adobe

*Ambassador*

- Mentored students in utilizing Adobe platforms to develop high-impact academic and creative projects.
- Collaborated with faculty to organize events that increased community engagement and creative output.

Aug. 2025 – Present

Mount Pleasant, MI

### Adobe Collaboration Lab

*Participant*

- Contributed to global research by providing usability insights on Adobe software to influence industry cycles.
- Analyzed UX design patterns in testing environments, delivering structured feedback to improve accessibility.

April 2026 – Present

Mount Pleasant, MI

### Chess Club, Central Michigan University

*Vice President*

- Organized inter-university chess tournaments and managed event planning logistics.
- Developed leadership and organizational skills through club administration.

Jan. 2024 – Present

Mount Pleasant, MI

## Certifications

**Master Certificate: VR Course** | *SP Robotic Works*

Developed a VR urban environment in Unity featuring 3D infrastructure and realistic lighting.

Oct. 2019
